

Going to the pool

I am going swimming at the Ballarat Aquatic and Lifestyle Centre

When I get there, people at the desk can help me if I have questions

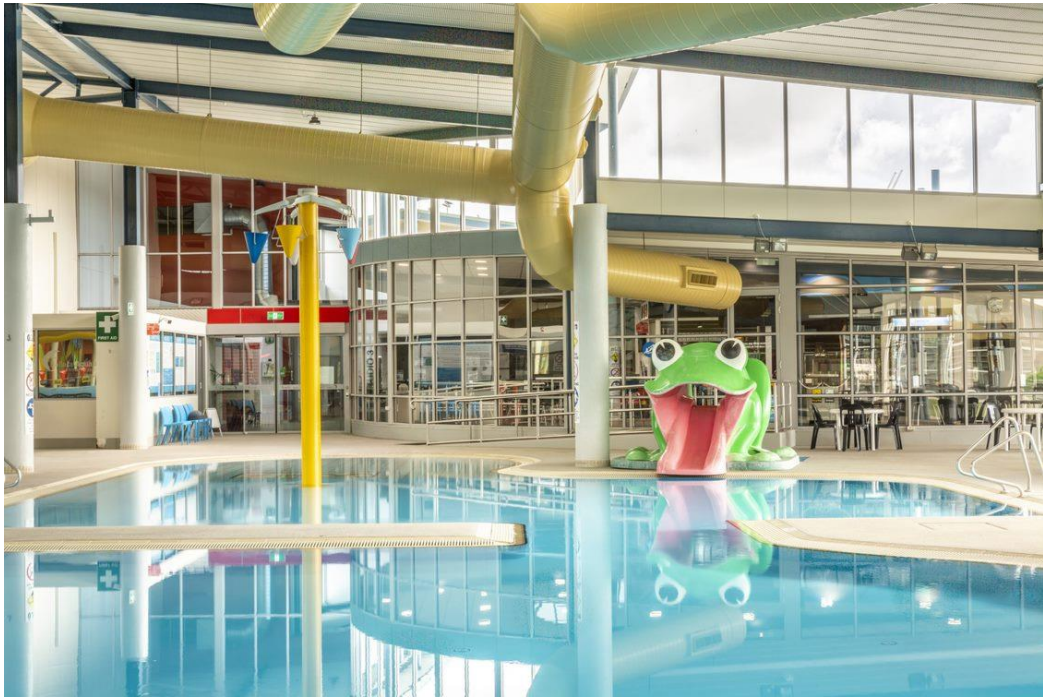

There are a few places where I can get changed, before or after I swim

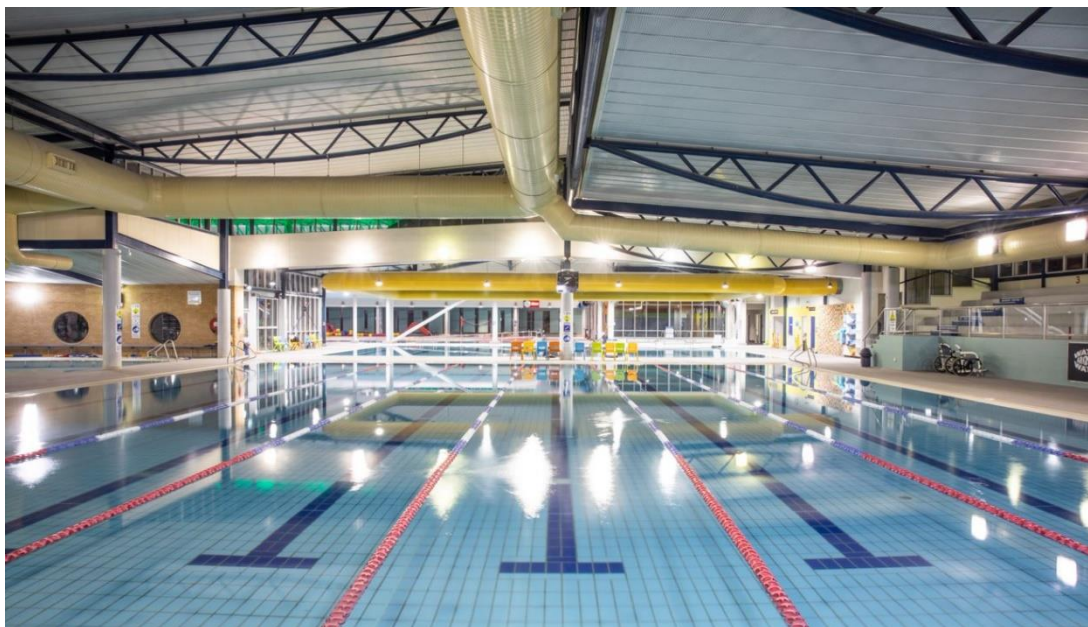

If I need a place to put my things, I could use these lockers

This is the learn to swim pool. It is a good pool for kids and families

This is the 25-metre pool. It is good for activities like aqua aerobics

This is the warm water, multipurpose pool. It can be used for people who are injured or who do special exercises

This is the 50-metre pool. You must be able to swim well to be in this pool. At the end of the ramp the water is very deep

I must always walk around the pools, and to and from the changerooms

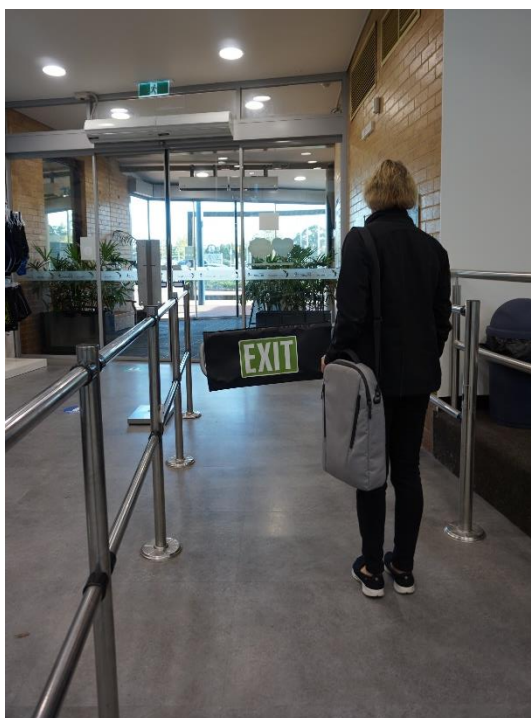

The pool area is often busy and sometimes noisy

Lifeguards are there to help me if I have any questions

When I am finished, I collect my things and take them home

Have fun at the Ballarat Aquatic and Lifestyle Centre!
